Mercy Hospital ranked amongst the
Nation's top 5% for clinical excellence.

Dr. Aldo Berti, Neurosurgeon and Medical Director of the CyberKnife Institute at Mercy Hospital, will present a lecture featuring The CyberKnife® Robotic Radiosurgery System. The Cyberknife is a non-invasive alternative to surgery for the treatment of both cancerous and non-cancerous tumors anywhere in the body, including the prostate, lung, brain, spine, liver, pancreas and kidney. The treatment – which delivers beams of high dose radiation to tumors with extreme accuracy – offers new hope to patients worldwide.

Join Dr. Berti and learn how CyberKnife offers cancer patients a pain free option with significantly fewer complications than traditional surgery.
